### ENFORCE THE LAW.

What a Citizen Says of the Gambling Going On.

RENO, Nev., October 27, 1887.

EDITOR JOURNAL—I notice by your issue of the JOURNAL of the 26th inst. that a move is being made to force gambling to the back rooms where the law places it. This is laudable and a move which the Sheriff should see is carried out. While the question of gaming is being discussed permit me to suggest that there are other provisions of law relative thereto that should be enforced. There are many young men under twenty-one years of age in town who are infatuated with the various games and squander their limited earnings in gambling. This is done in the face of a penalty for knowingly permitting to enter or remain in any licensed room any person under twenty-one years, of a fine of not less than \$1,000 and not more than \$3,000, or imprisonment in the County Jail not less than six months nor more than a year, or both such fine and imprisonment. This law is most openly and flagrantly violated, and yet there are no prosecutions. There is another law that has been on our Statutes since 1861 that is practically a dead letter in Reno, Section 1 of which reads as follows: "No person shall keep open any playhouse or theater, race ground, cockpit, or play at any games of chance for gain, or engage in any noisy amusements on the first day of the week, commonly called the Lord's Day." For a violation of this section the offender is subject to a fine of not less than thirty nor more than two hundred and fifty dollars, and to give bond for his good behavior, and stand committed until the whole order is complied with and the fine paid.

There is not a Sunday but this last section is violated. Yet the officers pass by blindly without making an arrest. Peace officers are for the purpose of suppressing crime and arresting all violators of the law. It is presumed they are not respecters of persons. If an inoffensive tramp asks for bread he is pulled. Should the officers be as ready to enforce the law against other offenders as they are against the tramps the treasury would be enriched instead of depleted, and those who wear the badge of office could not be charged, as they are, with favoritism and non-performance of duty.

TWO DAILY TRAINS NOT PRACTICAL.—The San Francisco Alta of Wednesday contains the following concerning the two daily passenger trains so long under discussion: "For several weeks past the officials of the Union Pacific and Central Pacific lines have been in consultation discussing the utility of running two through overland trains daily. At present the Union Pacific runs two trains a day as far westward as Cheyenne. In connection with this same subject, General Manager Towne and General Superintendent Willmore, of the Central Pacific, were in Ogden during the early part of the present month and a few days ago they, in company with Vice President T. P. Potter, of the Union Pacific road, came to this city. Negotiations were continued here, but apparently without result, for it is now stated that the project of two trains a day is given up, and Mr. Potter will return East on Friday of this week. The officials of the Central Pacific, in speaking of the subject yesterday, stated that the plan had been considered and the conclusion arrived at that it was not practical. Beyond this no reason was assigned and no additional information could be obtained.

The Enterprise says the new stock of the Alpha Consolidated Mill and Mining Company will be ready for issue to stockholders of the Alpha Consolidated Mining Company upon surrender of their old certificates at the close of the week. They will receive three and one-half shares of the new stock for each share of the old. The new company contains 105,000 shares.

The Regents of the University yesterday placed \$10,000 additional insurance on the State University building, through the Bank of Nevada, in that splendid company, the Commercial Union. There is now \$20,000 on the building.

Cleveland being in Washington, Jeff Davis is now making a successful tour of the South.

PLANTING LAKE TROUT TROUT.—A Los Angeles dispatch says that on Monday last Superintendent Shipley, of the Colfax Hatchery, placed 10,000 Lake Tahoe trout in the San Gabriel river, near the mouth of the canyon. They were in good condition, and only a few died on the way. The trout were put in near the scene of the Axuna water-right troubles, and the distributors came near being fired on by forty armed men guarding the ditches mistaking the distributors for their enemies in the water war.

Rev. Father Tubman, of Virginia City, arrived yesterday morning from the Retreat in Grass Valley and passed on to Virginia City.

General Bob Parry, of the Depot Hotel, Reno, was asked by a gentleman from Boston this morning what the population of the town was, and Robert, with not as much as a smile or a blush, replied: "Between four and five thousand," and then the stranger treated to the cocktails.—Carson Tribune.

### ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw f-1-v

BEATS THE LOUISIANA LOTTERY.—For the next sixty days all those who purchase one dollar's worth of groceries at Havener's Cash Store will receive a ticket in a drawing for a fine gold watch. This is certainly a liberal proposition and all groceries sold at this establishment are fresh and of the best quality, and are disposed of at the lowest retail price. All goods are warranted and if not as represented the purchase price will be refunded. Go and take your chances in the watch.

What Is It That produces that beautifully soft complexion and leaves no trace of its application or injurious effects? Wisdom's Roborant accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and matchless. B. J. HODGKINSON & CO., Agents Va. St., Reno, Nev. my 24 ly

## BREVITIES.

J. F. Bonham is in from the North. Charley Bender would give \$1,000 for a boy.

The train was an hour and a half late last night.

J. R. Johnson, the commercial traveler, was in town yesterday.

Washoe's poll tax collections for 1887 already aggregate \$4,299, for 1,433.

Judge Mesick, who has been up to Virginia, returned to the Bay last night.

Standard Nerve Food a healthful drink. Geo. Becker, agent, Reno, Nevada.

Dan O'Connor has returned from his Eastern trip, but says there is no place like Reno.

Richmond Smith, Wells, Fargo & Co.'s agent, returned from the Bay yesterday morning.

D. G. Corbett, one of Carson's oldest residents, is quite ill from a touch of pneumonia.

Richard Ryland is doing a good deed in circulating a petition requesting the Commissioners to grade the streets.

Fine oysters, and in every style, at the Palace restaurant. Lemery and Howard are always on hand to care for customers.

Get your reserved seats for the two evenings of Sullivan's Mirror of Ireland, at the Nevada Theater to-morrow and Monday nights.

The U. S. Circuit Court was in session in Carson last Monday, and a venire was ordered issued for 40 trial jurors, returnable November 8.

The Sulliff case against Irvin Ayres, for a debt due from J. E. Calderwood, was given to the jury last night, and the decision was for the defendant.

During the past month the emigrant travel over the Central Pacific has been unusually heavy, and exceeded any preceding month for the past two years.

Wednesday was the twelfth anniversary of the fire which swept the business portion of Virginia City in 1875 and destroyed property valued at \$5,000,000.

Reno Division, No. 2, Uniform Rank, Knights of Pythias, will hold their regular semi-monthly meeting in Masonic Hall to-night. A full attendance is requested.

There are now 54 pupils in attendance at the State University at Reno. All, or nearly all of them, are understood to be in the academic or preparatory department.

Another big railroad accident is reported in the telegraphic dispatches from the East, wherein several persons are supposed to have been killed. No particulars.

S. Jacobs' place is one of the busiest in town. He keeps six tailors at work to supply the demand for merchant tailoring that comes to him from all around this section.

There is no truth in the report that the railroad company has withdrawn the new rate on cattle from the eastern part of the State. It is believed the railroad will lift the rate and place the tariff back at the old figure.

Wm. Fries, President of the Eureka Consolidated, and Hank Donnelly, the Superintendent, visited the Comstock yesterday, the former returning to the Bay last night. Mr. Donnelly will go to Eureka this morning.

Dr. Chas. W. Porterfield, the celebrated rupture specialist, remains only a few days longer at the Lake House, giving a last opportunity for those suffering from hernia. Go consult him before his departure for Southern California.

Attorney General John F. Alexander returned from Susanville Tuesday and appears to be none the worse for his trip, as he looks hale and hearty, and entertains good opinions of that country. He will leave for Carson to-day.

Washoe pays more taxes to the State than any other county, and pays more to the State than it collects for itself. The difference is only one cent, but Washoe generously gives the State the biggest half. And now all the other papers will kick.

W. M. Gifford arrived in Reno Tuesday night with five car loads of sheep or about 650 head. They were shipped yesterday to Luning & Hall, San Francisco, for immediate consumption. Last night he shipped another batch of 500 head to the same destination.

Mr. Al. Davis the well-known commercial traveler, and brother of Harry and Maurice Davis, arrived in Reno Wednesday night. He will remain over with his parents for a few days preparatory to shipping a large quantity of choice cigars to his patrons throughout California and Nevada.

## ART.

A Distinguished Artist in Reno—Unassuming Yet Famous—Interesting Chat.

The celebrated artist, M. Straus, the personal friend of Toby Rosenthal, so famous for his pathetic and sorrowful paintings, such as "Vacant Chair" and "Constance to Beverly," has been quietly resting in Reno, with his good wife, for the past few days. His wife is a cousin of W. A. Fogg, the butcher, and herself and husband are the guests of his family. A JOURNAL reporter stole into his little world on canvas yesterday quite unexpected and found the genius at work. Mr. Straus has been the recipient of first prizes at every art exhibition in which he contended, from San Francisco to Chicago. He spent last Winter in the latter city but says it is too cold, and so during the past Summer he has been taking sketches in Illinois, Wisconsin, Colorado and Nevada. In these he embraces Glenwood Springs, Estes Park, Manitou, Clear Creek Valley, Along the Platte, Lake Tahoe, Reno and many scenes on the Truckee river. He has quite a number of life sketches that would be well worthy some of the masters' art. Besides such as above mentioned he has taken particular pains to transmit to canvas a "Campoodle" which lies down near the Reduction Works, on the Truckee, that is as near natural as anything we have ever seen. His "Deserted Tepee" could not be improved upon, and from its naturalness, must attract much attention in art circles. The scenes he is now sketching on the Truckee will long reflect credit upon himself and make many wish they lived near its romantic banks. He has several highly executed paintings in the Humboldt also. Besides Water Falls, Jacks, Mt. Sopris, Espin, Buffaloes, and some of the richest foliage imaginable. He said that Toby Rosenthal, who is now in Munich, has more orders than he can fill should he live for 100 years longer since he painted "Constance to Beverly." "Yet," he continued, "he lost his best friend and admirer in King Ludwig, of Bavaria." He continued, "California has produced many young men prominent in the professions, and I must say that the name of H. H. Heath, of San Francisco, though young in years, will soon figure conspicuously in art circles. He is now in the White Mountains, I expect things of him." Mr. Straus is more prone to praise other people's work than his own, but it speaks for itself.

THE MIRROR OF IRELAND.—The following complimentary notice is taken from the Denver Tribune and News: "Another large audience greeted the Dan Morris Sullivan Combination at the Academy of Music last night. This show is popular and deservedly so. The panorama depicting scenes and life in Ireland are perfect representations, and the sketch work of Dan and Josie Sullivan is amusing and entertaining. This is the fifth visit of Mr. Sullivan to Denver, the first having been made as far back as 1870, and he has made a host of personal friends here." At the Nevada Theater to-morrow and Monday evenings. Seats on sale at the Postoffice without extra charge.

A MAMMOTH HERD.—Bill McKay brought in to Reno yesterday some 4,000 head of sheep from eastern Oregon. They were driven to the different ranches throughout the Truckee Meadows to be fed for mutton. The sheep were in elegant condition when they arrived, "but," as an old herder said, "when they begin to drink in the succulent alfalfa I see heresabouts I'll show you sheep that is sheep, sir," and as he walked away we naturally concluded he was right, and that if the sheep continue to arrive in such large numbers daily an advance in the price of hay must necessarily be effected. A hint to the wise is sufficient.

BEAUTIFUL STOVES.—Manning & Jacques are doing a driving business just now in the line of parlor stoves and kitchen ranges. Their stock is a beautiful one and the patterns are more artistic than ever. Now is the time to fit up the house with such goods as conduce so much to ornament and comfort as fine stoves.

NEW BUILDINGS.—Jake Becker is negotiating for the erection of two-story brick building on Sierra, near Fourth streets, which will cost \$15,000. Mr. Becker, like many others, has great faith in the business future of Reno which lies to the north of the C. P. R. track.

FURNITURE FACTORY.—Oaks & Sessions, of the Reno Furniture Factory, at the corner of Plaza and Virginia streets, are building a new addition to the same in the shape of a workshop. In a few days the JOURNAL will give a full description of this establishment.

DIVORCES.—Records in the Clerk's office show that there have been 92 divorces granted in Washoe county since January 1st, 1886. The largest number recorded in any one year was in 1886, when there was an average of one each month for that year.

## AN OBSERVANT TRAVELER.

A Reporter's Experience—Gongs, Triangles, Bells—Reno's Future.

It is said that reporters and commercial travelers make very good detectives. This may be due to the fact of the development of their powers of observation, so that nothing escapes their notice. The most common-place occurrence, that comes under the eye every day of the casual observer, is often made the instrument for the conveyance of reflections that make people laugh and chat in merry parties at the breakfast table, or become the subject of interesting discussion in the clubroom in the evening. Here in Reno one of these genus homo attached to the JOURNAL, was greatly amused when the morning train arrived yesterday to meet a commercial traveler from San Francisco, whose business compels him to alternate between the city by the

PLACID WESTERN SEA, and the great metropolis which lies so majestically on the shores of the turbulent waters of the Atlantic. After a shake and the ordinary indulgence in a matutinal for old times' sake, the first thing he said was: "Well, don't you know that I was asleep a few minutes ago, but that I awoke suddenly when the cars stopped, which is not my custom, and I knew I was in Reno." "Why," ejaculated the reporter, as he gazed in astonishment at the man who crosses the continent at least half a dozen times a year. "Why? Because I heard Johnnie Fitzgerald's gong. There is no man," he continued, "between here and Gotham, can cause a gong to emit such music as that Reno instrument in his hands. The man throws his whole soul into it, and I'll wager the wine that he would just as soon relinquish his half interest in the Hotel as to sacrifice the privilege of pounding that Chinese paralyzer. But let's have another." Of course compliance in the newspaper parlance, under such happy circumstances is always considered a virtue, and we acceded. As the beverage disappeared into the cavity where many had preceded them, he tapped the scribe on the shoulder and turning his eyes over towards the Palace, he said: "But of

ALL THE RACKETS That I ever did see or hear, that old drill triangle of ex-Assemblyman Lemery's takes the bakery. Why, if he made a trip East, triangle, steel and all and visited the New York Legislature, they would elect him to a prominent position under the State Government, or collect a large amount of money to purchase the instrument for preservation as an evidence of how Nevada's ex-Assemblymen amuse themselves when their statesmanship is no longer needed to direct the affair of the State." At that moment Bill Campbell's man and the jehu at the Nevada Coffee and Chop House began to vie with each other as to which of them could crack a large, brass dinner bell the quickest, intermingling their inharmonious sounds with such musical expletives as, "Here's your hot coffee, and—ding-dong—lunch! Only—ding-dong—twenty-five—ding-dong cents, etc. Turning to the observant traveler, we ventured to remark: "Is that any improvement on Johnnie's gong or Clem's triangle?" "Oh God," he cried, "I can't hear a word you say, but let us go into the hotel." Putting the

ACTION TO THE WORDS, We were about to enter, when he tremblingly grasped me by the arm and pointing his index over towards Kileen's, he saw a gray haired man emerge from the front door of the Pollard House with a brass handled poker held aloft in his right hand, making straight way for one of the hugest triangles ever exhibited or heard of in this or any other country. This triangle, the reporter learned subsequently, was made from three drills that saw service in the Con. Virginia, Crown Point and Yellow Jacket, and each had a history. He approached the monster and struck it with all the force of his Celtic nature, and another and another imitation of the fanfifles Lemery on the triangle followed, when the observant traveler pulled the poor reporter into the hotel where he fainted away gasping: "Reno! Oh, Reno! thy future is assured!"

THE STOVE INDUSTRY.—Messrs. Lange & Schmidt, wholesale and retail merchants on Commercial Row, whose new advertisement can be seen in another column, informed a JOURNAL reporter yesterday that they had just received a large stock of the most improved wood and coal stoves to be found in the market. Besides they have replenished their stock with all kinds of hardware, stoves, furnaces, paints, oils, glassware and groceries. It is almost needless to remind our readers that they manufacture all kinds of tin, copper and sheet-iron ware. These gentlemen are acting in accord with the spirit of the times and are prepared to do all kinds of plumbing and tin work desired, from the changing of a wood to a coal stove to the laying of gaspipe or the fixing of sewer connections. It might be added that they occupy at present "Boch's Old Stand," and that their store is well stocked.

THREE NEW LOCOMOTIVES.—The overland train yesterday morning arrived with three brand new locomotives from the Baldwin Locomotive Works, of Philadelphia, Penn. They were in the charge of Mr. Wm. J. Blombaum, and two of them were consigned to California. One of those was for the Eel River & Eureka R. R. Co., Humboldt county, Cal., and the other for Paxton & Curtis, of the Pacific Lumber Company. They are excellent pieces of workmanship, and will not be shipped from Reno until this afternoon. The other engine was ordered by the Moran Brothers, of the N. & C. narrow-gauge railroad. It weighs twenty-five tons, and is a perfect model of mechanical skill. It is called "Erasmus Gest." It will be taken from the cars to-day, and placed on the track, although, according to information received from the present management of the N. & C., there will be very little for it to do, as the people in the neighborhood of Susanville seem more inclined to retard than to encourage the further progress of the railroad.

A FIREMAN.—Bert Crane, well known as the "dandy caterer of the Lake House," and who for so long a time was employed in the Palace restaurant, was in town yesterday on one day's leave of absence. He is at present working as a fireman on Engine No. 22, S. P. R. R., looks hale and hearty, growing stout and has every appearance of a man earning in the sweat of his brow, and not coffee fumes, owing to overtime, something over \$100 per month—and don't you forget it.

WASHOE'S ROLL.—The assessment roll of Washoe county for 1887 has been footed up and shows \$3,177,970 real and \$1,367,945 personal property, a total of \$4,545,915, upon which the tax amounts to \$81,826 47, of which \$40,913 24 goes to the State and \$40,913 23 to the county. Washoe is the boss in every respect. But this is not quite all, for the Assessor, between now and December 1st, will increase the roll \$50,000 or \$60,000 on personal property.

PHIL REESE TAKES A TUMBLE.—The Virginia Chronicle says Philip Reese received a severe but not serious scalp wound by a fall at the Chapin House on Monday evening. He was about to retire for the night. Opening a door which he mistook for that leading to his sleeping apartment, Mr. Reese made a step forward and was precipitated head-first down a flight of stairs, striking the back of his head with great force on the bottom landing.

OLD FRIENDS MEET.—Mr. George Filmore, brother of Superintendent Filmore, of the S. P. R. R., passed through Reno Wednesday night. He was met at the Depot Hotel by Lieut. Gov. Davis, Supt. Whitely and others and for a few minutes an enjoyable time was had at the bar. Mr. Filmore has been East for some time and returns, as he says himself, only too glad to breathe the health invigorating air of California.

STATE FUNDS.—On the 26th Governor Stevenson and Secretary of State Dorrmer counted the money and vouchers in the State Treasury and found \$299,255 20 in coin and \$42,732 89 in vouchers. The State School Fund has the \$380,000 Irredeemable Nevada State School Bond, \$146,000 in Nevada State Bonds and \$300,000 in U. S. Bonds, a total of \$826,000 in the School Fund, and \$342,018 09 in the Treasury.

Two more trains are on the way via the Central Pacific, bound for San Jose. They are special excursions under the supervision of Mr. Forgrave who went East some weeks ago at the instance of the San Jose Board of Trade. The first one is at Ogden, and comprises 118 persons, mostly from Iowa. The second will arrive at Ogden on Friday of this week. It numbers 182 persons from Minnesota and Wisconsin.

THE AUSTIN EXODUS.—H. H. Burt and family are a part of the Austin exodus and have arrived in Reno to remain permanently. Mr. Burt is a butcher by trade, and says that the town of Austin has gone in completely. It is his purpose to purchase a home here and go into business, as both himself and wife much prefer the climate and future of Reno to anything else in Nevada.

UTILIZING SAWDUST.—A new industry has been started in Bangor, Me., which promises to become quite an extensive one. Every mill on the river wastes great quantities of sawdust. It has not been available for shipping because of its bulk. Now a hydraulic press has been invented to press the sawdust and reduce its bulk some 75 per cent. and in this shape it can be shipped.

In the District Court of Storey county, Wednesday morning, W. Williams was granted a divorce from Alice Williams on the ground of extreme cruelty. This is the first case on record in Nevada where a husband has been granted a divorce from his wife on the ground of extreme cruelty.

Steve Ede informs a JOURNAL reporter that he has 200 tons of hay for sale in Sierra Valley, at \$8 per ton. Address Reno.
